EXPERIENCE

Movinga
Senior Software Developer   FEBRUARY 2019 - CURRENT

- Coded as part of a development team on Rails apps, including customer-facing products, internal tools, and APIs; delivered new features while improving existing functionality and expanding test coverage
- Integrated comprehensive logic into a Rails API in order to handle customer payments and update data for upcoming moves

The Gnar Company
Freelance Software Developer   JUNE 2018 - JULY 2018, OCT 2018 - JAN 2019 (6 MONTHS)

- Created a system to track surgical tool deliveries to hospitals for TORq by adding functionality to Rails APIs and ReactJS apps
- Built interactive, business ROI calculators for the Hobson & Co Rails application, while also greatly espanding its test suite

The Gnar Company
Software Developer   APRIL 2016 - JANUARY 2018 (1 YEAR, 9 MONTHS)

- Built a series of APIs for the LevelUp Rails app to make new food providers available to customers via their mobile app
- Added new features to the Qeepsake Rails app as the sole project engineer, including photo upload, and tiered feature access
- Coded and attended meetings remotely over the course of 6 months while traveling across Europe, Africa, and South America

MeYou Health
Software Developer   MARCH 2014 - JANUARY 2016 (1 YEAR, 10 MONTHS)

- Coded as part of a development team for Walkadoo and Well-Being Tracker in an Agile environment with weekly deliverables
- Built an internal dashboard to display user metrics for five products, driving metric-based development; utilized product APIs to gather data and display them via a dynamic front end view

Harmonix Music Systems
QA Lead   OCTOBER 2007 - JUNE 2012 (4 YEARS, 9 MONTHS)

- Integrated Agile methodology with the QA process for Dance Central 2 by training testers and embedding them on feature teams, resulting in increased codebase knowledge and 25% more bugs found than the previous project
- Managed a Rock Band QA team as it grew from 5 to 10 testers; created processes resulting in a 400% increase in testing capacity

General Electric Energy
Gas Turbine Controls Engineer / Classroom Trainer   OCTOBER 2001 - OCTOBER 2006 (5 YEARS)

- Managed crews of laborers and specialists on $10MM+ energy projects in 7 different countries; acted as liaison to work cooperatively with GE customers to resolve issues

INTERESTS

Staying active via biking, yoga, snowboarding and running; amateur DJ and musician; daily meditation

EDUCATION

Bachelor of Science in Mechanical Engineering
University of Delaware   SEPTEMBER 1997 - MAY 2001
